

CONTENTS

Foreword	ii
Subject Sections	
1. Photosynthesis	1
2. Respiration	2
3. Plastids and Mitochondria	3
4. Cell Organization and Membranes	6
5. Nucleic Acids and Protein Synthesis	8
6. Nitrogen Metabolism	11
7. General Metabolism	12
8. Enzymes	15
9. Absorption	19
10. Nutrient Relations	20
11. Water Relations	21
12. Translocation	21
13. Vegetative Development	22
14. Reproductive Development	24
15. Tissue and Cell Culture	25
16. Photomorphogenesis and Photoperiodism	26
17. Growth Regulators	28
18. Tropic and Nastic Movements	32
19. Germination and Dormancy	33
20. Stomatal Physiology	34
21. Stress Physiology	34
22. Radiation Effects	35
23. Biosynthesis	36
24. Phytochemical Reports	38
25. Taxonomy	48
26. Flora Reports	49
27. Genetics and Cytogenetics	49
28. Plant Breeding	51
29. Production Ecology and Physiology	53
30. Crop Protection	55
31. Plant Pathology	58
32. Symbiosis	64
33. Ecology	65
34. Conservation and Pollution	65
35. Anatomy and Morphology	66
36. Palynology	66
37. Palaeobotany	66
38. Plant Systematics	66
39. Evolution	67
Author Index	68
Abbreviations to Authors' Addresses	77
